iSmartRecruit

iSmartRecruit

Recruiting CRM & ATS Software

Recruitment Marketing

Advertise your jobs on various marketing channels like social media, job boards, referrals and reach the maximum number of potential candidates and find the best talent quickly.

Applicant Tracking System

Customise your recruitment workflow and manage your end-to-end recruitment process with better efficiency and accuracy.

Recruiting CRM

Strengthen your end-to-end relationship and deliver great experience to your candidates, clients and vendors.

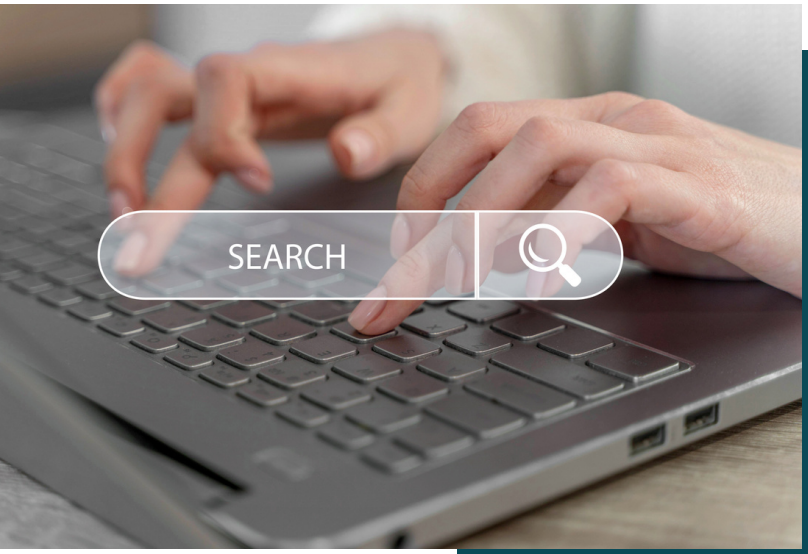

Team Collaboration

Work better together and make collaborative recruitment decisions with team collaboration feature like email synchronisation, task management, automated reminders etc.

AI & Automation

Eliminate your manual recruitment tasks with automation features like a resume parser, AI-profile matching, recruitment chatbot, autopilot workflows, video interviewing etc.

Powerful Search Algorithms

Locate the key information from resumes and candidate databases and find suitable talent faster with search algorithms like Boolean Search, Fuzzy Search, Proximity Search, and Contextual Search.

Chrome Extension for LinkedIn

Boost your candidate sourcing process by converting LinkedIn profiles to candidates or leads in just a click.

Customisation & Personalisation

Build a better system for your business with out-of-box customisation and personalisation options available within the system.

Analytics & KPIs

Leveraging advanced reporting helps you to identify bottlenecks, optimise your recruitment process and make data-driven recruitment decisions with Analytics & KPIs features.

Read what our client is saying

We shifted from using our previous system ***(Bullhorn) to iSmartRecruit*** *to mainly eliminate the challenges faced in email communications and tracking pipelines. iSmartRecruit became a game changer for us. It allows GDPR automation and client & candidate layout customisation. It is also* ***highly-scalable ATS*** *and provides us with a pipeline overview, Microsoft Teams integration, multiple reports and easy job publishing on job sites at no additional cost. The data migration from Bullhorn was also* ***smooth and cost-effective.***
